## Accounting & Finance Portfolio

Faculty of Commerce (English Section) | Helwan University

EXPECTED GRADUATION

2028

GPA

3.43 / 4.00

LOCATION

Giza, Egypt

ACCOUNTING • FINANCIAL ANALYSIS • AUDITING • BANKING • INVESTMENT

## About Me

I am Abdelrahman Ahmed Badr, a highly motivated second-year Accounting and Finance student at the Faculty of Commerce (English Section), Helwan University. With a strong academic foundation and a genuine passion for financial analysis, I am committed to developing the technical expertise and analytical capabilities required to excel in Egypt's dynamic financial sector and beyond.

My academic journey has equipped me with a comprehensive understanding of core accounting principles, financial reporting standards, and financial statement analysis. I approach every challenge with intellectual curiosity and a commitment to accuracy — qualities that are essential in the world of finance and accounting.

### Professional Profile

A dedicated and academically high-performing Accounting and Finance undergraduate with demonstrated proficiency in financial statement preparation, accounting cycle applications, and financial data analysis. Possesses strong quantitative reasoning skills combined with advanced proficiency in Microsoft Office Suite tools essential for modern financial practice. Actively pursuing language excellence through the American University in Cairo's English Language Development Program, reinforcing the ability to communicate effectively in professional and client-facing environments.

**3.43**

GPA

**2nd Year**

Status

**2028**

Graduation

**C1**

English

### Core Attributes

- Strong analytical and quantitative thinking skills developed through rigorous academic coursework in accounting and finance.
- Excellent written and verbal communication skills in both Arabic and English, further reinforced by the AUC English Language Program.
- Proven ability to collaborate effectively in group academic projects, contributing constructively to shared objectives.
- Consistent commitment to accuracy, detail-orientation, and professional integrity across all academic deliverables.
- Self-motivated fast learner with strong adaptability to evolving financial tools, methodologies, and academic requirements.

**ABDELRAHMAN****AHMED BADR**

# Career Objective

To secure a challenging internship or entry-level position within a reputable accounting firm, financial institution, or corporate finance department, where I can apply my academic knowledge of financial reporting, analysis, and auditing to deliver measurable value. I am committed to building a distinguished career in accounting and finance characterized by professional integrity, analytical excellence, and continuous growth.

In the short term, I aim to complete my undergraduate studies with academic distinction, gain hands-on experience through internships at leading financial organizations, and earn internationally recognized professional certifications such as CPA, ACCA, or CFA. In the long term, I aspire to become a senior financial analyst or chartered accountant contributing to Egypt's financial sector development and economic growth.

## Education

### Bachelor of Commerce – Accounting & Finance

Faculty of Commerce (English Section) | Helwan University  
Second Year | GPA: 3.43 / 4.00 | Expected Graduation: 2028

GPA  
3.43

## Academic Highlights

### Core Accounting Principles

Completed advanced studies in double-entry bookkeeping, ledger management, trial balance preparation, and the complete accounting cycle.

### Financial Statement Analysis

Developed analytical skills in interpreting income statements, balance sheets, and cash flow statements with ratio-based evaluation.

### Managerial Accounting

Applied cost accounting methods, variance analysis, and budget preparation techniques through structured case study exercises.

### Financial Mathematics

Gained proficiency in time value of money, interest calculations, annuities, and investment evaluation methodologies.

### Business Law & Ethics

Studied legal frameworks governing business entities, contract law, and professional ethical standards in the accounting profession.

### Introduction to Investment

Explored equity valuation, risk-return tradeoffs, portfolio theory, and capital market instruments in finance coursework.

# Academic Projects

The following academic projects were completed as part of coursework in the Faculty of Commerce, demonstrating hands-on application of accounting and finance principles to realistic and structured scenarios.

## 01 Comprehensive Financial Statement Analysis – Fictional Manufacturing Co.

### PROJECT OBJECTIVE

To prepare, analyze, and interpret a complete set of financial statements for a fictional manufacturing enterprise — including income statement, balance sheet, and cash flow statement — applying GAAP accounting standards and ratio-based evaluation.

### KEY RESPONSIBILITIES

- Constructed a 12-month income statement reflecting revenue, COGS, gross profit, operating expenses, taxes, and net income using a realistic data scenario.
- Prepared a classified balance sheet distinguishing current and non-current assets, short-term and long-term liabilities, and shareholders' equity components.
- Developed a cash flow statement using the indirect method to identify and categorize operating, investing, and financing activities.
- Computed and interpreted 12 key financial ratios including current ratio, quick ratio, debt-to-equity ratio, gross margin, and return on equity.

Financial Reporting

GAAP

Ratio Analysis

MS Excel

Data Interpretation

Report Writing

### KEY LEARNING OUTCOMES

Developed a thorough understanding of financial statement interconnections; gained confidence in

## 02 Corporate Budget Preparation & Variance Analysis – Retail Sector Case Study

### PROJECT OBJECTIVE

To design a comprehensive master budget for a simulated retail enterprise across a 12-month fiscal period, incorporating sales forecasts, operating budgets, and capital expenditure plans, followed by variance analysis comparing budgeted vs. actual results.

### KEY RESPONSIBILITIES

- Constructed sales, production, direct materials, direct labor, and overhead budgets for a simulated retail operation with seasonal demand patterns.
- Developed a consolidated master budget integrating all departmental budgets into a cohesive 12-month financial plan with monthly projections.
- Performed detailed month-by-month variance analysis, identifying and quantifying both favorable and unfavorable deviations from budget targets.
- Prepared a structured management report recommending corrective actions based on variance findings, demonstrating commercial judgment.

Budget Preparation

Variance Analysis

Financial Planning

Management Reporting

Excel

### KEY LEARNING OUTCOMES

Mastered corporate budgeting processes and variance analysis methodology; developed proficiency in translating numerical findings into actionable management recommendations through structured, client-ready financial reports.

# Project 3 & Financial Case Studies

## 03 Company Liquidation Accounting – Full-Cycle Business Dissolution Study

### PROJECT OBJECTIVE

To apply liquidation accounting principles to a comprehensive business dissolution scenario, covering asset realization, liability settlement, capital distribution, and preparation of final liquidation statements in accordance with accounting standards.

### KEY RESPONSIBILITIES

- Prepared the opening liquidation statement listing all company assets at book value and identifying liabilities requiring settlement in priority order.
- Applied asset realization adjustments to reflect fair market values, recording realized gains and losses on disposal of each asset class.
- Documented creditor priority sequencing and calculated partial payment distributions under a capital deficiency scenario.
- Prepared partners' capital accounts, distributed remaining net assets proportionally, and closed all accounts to conclude the full liquidation cycle.

Liquidation Accounting

Capital Accounts

Asset Realization

Liability Settlement

### KEY LEARNING OUTCOMES

## Financial Analysis Case Studies

Gained advanced understanding of corporate dissolution accounting procedures; developed expertise in complex capital distribution calculations and successfully applied theory to a realistic case study

### Liquidity & Solvency Assessment – Dual Commercial Bank Comparison

Analyzed the financial health of two Egyptian commercial banks by computing and comparing liquidity ratios (current ratio, quick ratio, cash ratio), solvency indicators (debt-to-equity, interest coverage ratio), and profitability metrics (ROA, ROE, net interest margin). Produced a structured comparative financial report identifying the stronger investment candidate based on quantitative findings combined with macroeconomic market context analysis.

Ratio Analysis

Comparative Analysis

Financial Reporting

Banking

### Investment Evaluation – NPV, IRR & Payback Period Analysis

Evaluated three competing capital investment proposals for a manufacturing firm using Net Present Value (NPV), Internal Rate of Return (IRR), and Payback Period methodologies. Applied discounted cash flow analysis at multiple discount rates to rank investment options by risk-adjusted return, and prepared a structured recommendation report fully justifying the optimal investment decision with sensitivity analysis.

NPV / IRR

DCF Analysis

Investment Appraisal

Decision Making

Sensitivity Analysis

# Certifications, Interests & Career Goals

## Certifications & Professional Development

### English Language Development Program

American University in Cairo (AUC) | Currently In Progress

● IN PROGRESS

### Planned Professional Certifications:

- CPA** Certified Public Accountant – AICPA (2026–2027)
- ACCA** Association of Chartered Certified Accountants (2026–2028)
- CFA** Chartered Financial Analyst – CFA Institute (2027+)
- CMA** Certified Management Accountant – IMA (2026+)

### Areas of Professional Interest

#### Financial Accounting & Reporting

Preparation, analysis, and interpretation of financial statements under GAAP and IFRS standards.

#### Auditing & Assurance

Internal and external auditing principles, risk assessment frameworks, and regulatory compliance standards.

#### Investment Analysis

Portfolio construction, equity valuation methods, and asset allocation strategies using fundamental approaches.

#### Financial Analysis

Applying quantitative and qualitative techniques to evaluate corporate financial performance and investment opportunities.

#### Banking & Finance

Commercial and investment banking operations, credit analysis, and monetary policy impacts on financial markets.

#### Financial Management

Corporate finance, capital structure optimization, dividend policy, and working capital management strategies.

### Career Goals & Professional Vision

#### Short-Term Goals (2025–2028):

- Graduate with academic distinction, maintaining a GPA above 3.5 throughout undergraduate studies at Helwan University.
- Secure a competitive internship at a Big Four accounting firm, commercial bank, or leading investment institution in Egypt.
- Complete the AUC English Language Program and pursue CPA, ACCA, or CFA certification alongside academic studies.
- Build a strong professional network through the Faculty of Commerce's industry partnerships, career events, and alumni connections.

#### Long-Term Vision (2028–2035):

- Achieve licensure as a Chartered Accountant or CPA and advance to a Senior Financial Analyst or Audit Manager position.
- Contribute meaningfully to Egypt's financial sector through expertise in reporting, strategic analysis, and financial advisory.
- Build an enduring reputation as a trusted professional known for integrity, analytical precision, and consistent client value.
